

Blankets for Pets and Animals

Although making blankets for people has some restrictions you can use up some of your more unsuitable yarns making blankets for animal charities.

This is where you can use nearly any yarn, thickness, colour, type and size of square. Make smaller ones for cats and dogs etc, and larger ones for donkeys and horses. Again fluffy/ mohair type yarn would not be suitable as the loose fibres could cause irritation.

After making all your squares, sew them securely together and make sure there are no holes that claws or hooves can get caught in. Keep the seams as flat as possible and finish with a simple edging.

Deliver your blankets to your favourite charity shop such as Redwings, Hillside in West Runton, R.S.P.C.A shops or P.D.S.A, etc.
