

# Ribbed Crochet Bobble Hat

This hat can be made with any yarn and made to fit any sized head.

Match yarn with appropriate sized crochet hook. i.e. Double knit yarn and size 4mm or 8 hook. Or chunky yarn and size 5 or 6mm or 6 or 4 hook.

Measure from crown of head to just below ear lobe and add about 5 or 6 cm for brim. This will be the length of your hat.

Work enough chains to the length required. Work 2 ch and work a htr into 3rd st. Then work in htr in back loop only along row. Work 1ch.

Work a dbl in first st and htrs along row. Work 1ch.

Repeat row until work is wide enough to fit snugly around head.

Fold in half and crochet seam together by working slip stitches through back loop of front piece and both loops of back piece. Fasten off leaving long tail. Work running stitches around top edge and pull tight. Sew up any hole left and add a bobble if required.

I used a 100g ball of super chunky and a 6.5mm hook. Mine measured about 32 cm and will fit a small ladies head so 125-130g would make a larger ladies or man's hat.
