

Knitting Needle Roll

Cut 3 pieces, inner and outer fabric and an interfacing (such as a piece of curtain lining or wadding) 15" X 23". 1 piece 16" X 8 1/2" for pocket and 2 pieces 2 1/2" X 12" for straps.

Fold strap material in half lengthwise and stitch. Turn through, press and neaten 1 end of each strap.

Stitch small hem on long side of pocket. Position pocket on right side of fabric at bottom of inner material. Pin to each side then ease fabric to make 8 narrow needle pockets.

Position straps on right side just above the pocket.

With right sides of material together and interfacing next to the outer material stitch all round leaving a gap for turning.

Trim, turn and press then top stitch all round closing gap.

Fill with needles and turn top down. Roll up and tie. The top flap has been made loose, to accommodate long or short needles.
