

POPPIES

These poppies have been made from felt and scraps of fabric. Decoration includes buttons, beads and simple embroidery stitches.

Cut out two. Add whatever decoration to one of them. If it is to be a brooch then stitch the badge pin on the middle of the backing piece. If it is a key fob or bag charm then cut a length of ribbon or tape, thread on the lobster clip or key ring and pin in position.

Now join the two pieces together using blanket-stitch.

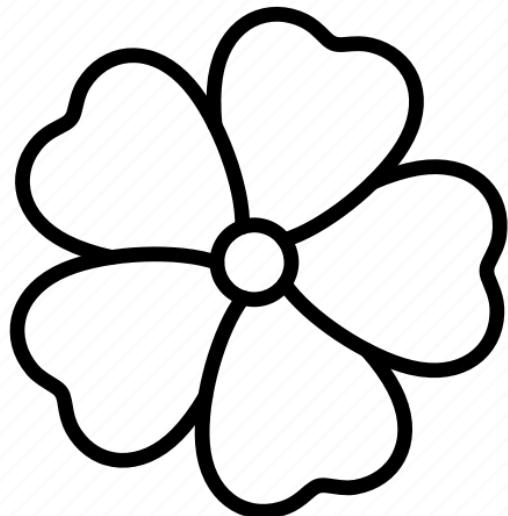

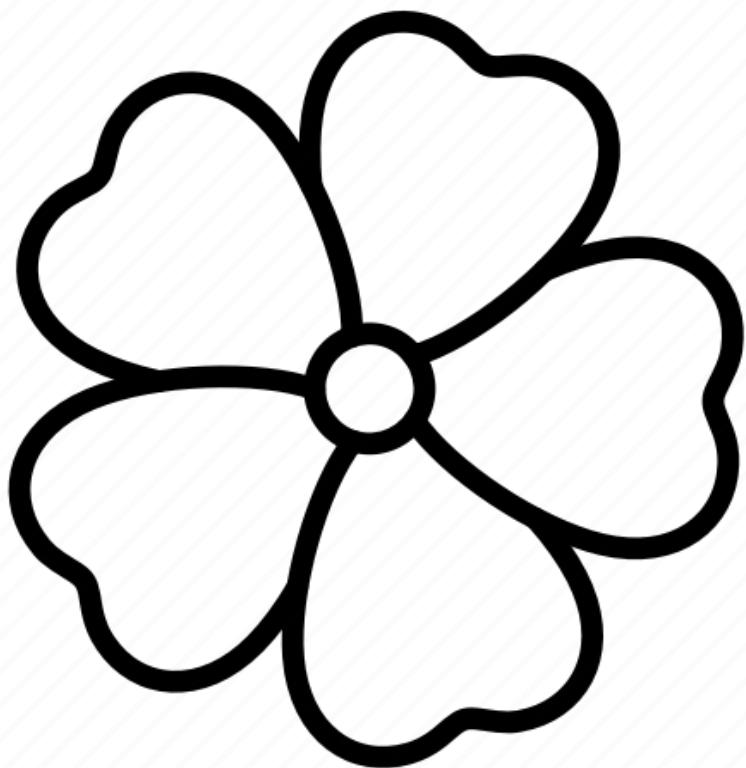

Lightly stuff if you wish.

For this larger one cut 5 heart-shaped petals and a round piece of felt to which they get attached. Sew the brooch pin in the middle of the circle. Blanket-stitch round each petal. Arrange on the felt circle and secure in position. Use either a small pompom or a black circle of felt for the centre.

Perhaps you might like to make a purple version which we then send to the animal charity PACT

Large felt poppy

Make a pattern piece by folding a piece of paper and drawing half of a “fat” heart from the fold. Choose the size you want, large or small.
